

# Now Available - TIA Portal V16 Ensure your delivery with the SUS

TIA Portal 16 for V15/15.1 users via an update service agreement

[www.usa.siemens.com/tia-portal](http://www.usa.siemens.com/tia-portal)

## Keep current with your engineering framework of the TIA Portal -with our SUS Agreement (current V15/V15.1 users)

Traditionally, you must have a valid current Software Update Service (SUS) agreement in place to be provided the latest software updates when they are released. If not, you will typically pay more for an “upgrade package” to get on the latest versions, once the release has been announced.

And you still must purchase the SUS agreement for the annual updates.

For a limited time ONLY – **mid FEB 2020** – Receive the TIA Portal V16 Online Delivery with a purchase of a Downloadable SUS agreement. *AND potentially receive the TIA Portal V17 later in 2020.*

You must already own a current version of TIA Portal V15/V15.1 Please see the reverse side of this document for a short list of available SUS products and consult your Siemens Sales Representative with any questions.

### Whats in the TIA Portal V16?

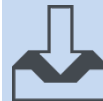

- TIA Portal V16 engineering framework:
- NEW HMI SIMATIC Unified Comfort Panels
  - Version Control Interface
  - TIA Portal Test Suite ( March 2020 )
  - Device Overlapping Trace for debugging
  - Distributed Gearing across devices.
  - Expanded OPC UA functionality and support now on S71200
  - And Much Much More...

### Why choose Software Update Service (SUS)?

In todays environment up-to-date software is an essential precondition for efficient work and reliable results. That’s why Siemens software is continually updated and improved.

**Fast and up to date:** Upgrades and Service Packs are available immediately after they’re released, direct to your email.

**Proactive:** You’ll get the SIMATIC software product notifications automatically via e-mail

**Transparent:** You can check and manage all SUS contracts via the SUS Manager Online

**Predictable cost:** An economical fixed annual fee for software maintenance.

### Save money by maintaining the SUS!

Software Update Service (SUS) prices are typically 20% of the list price of the new software.

Upgrades are typically 40% of list price.

## The basics – Controller, Safety & HMI plus Multiuser / PLCSIM Adv.

...for any current [TIA Portal V15/V15.1](#) please select appropriate SUSs below.

- ✓ If you have V11 –V14 versions we can support your migration to V16 with upgrade
- ✓ Please use the TIA Selection Tool or contact your local distributor or account manager
